Charging Your Device

Plug the USB Type-C cable(inclued) into the speaker's charging port, and connect the other end of cable to power adapter (not included). It's about 4 hours to full charge the battery.

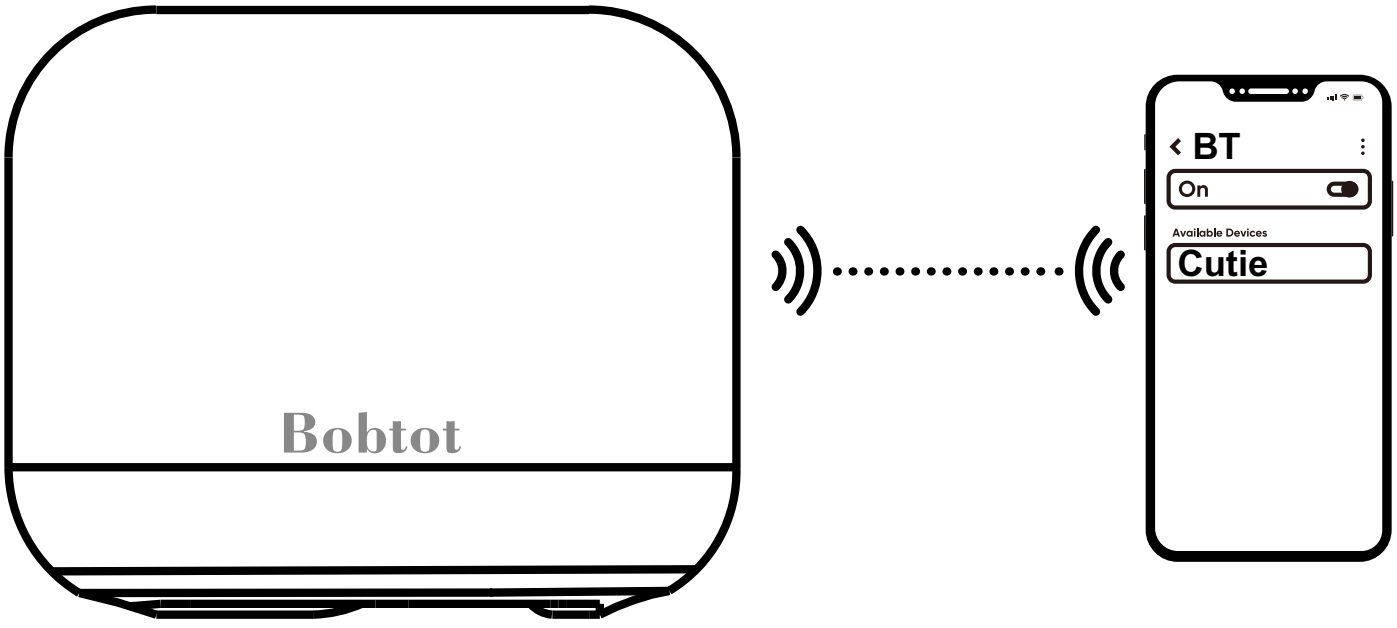

When it's charging , the indicator light is solid red.
When the speaker's fully charged , the LED light will be off.

Note: We recommend using a USB wall adapter with a DC 5V /2A output.

Charging port (USB Type-C)

Initial Setup

1） Once your speaker is fully charged, press and hold the ⏻ Power button until you hear a voice prompt indicating the device has entered BT pairing mode.

2） On your smartphone or tablet or other BT devices, search for the BT named " **Cutie**" and tap to connect.

3) The speaker will play promptly once pairing is successful

Hands-Free Calling

Answer Button
Short press to accept an incoming call.
Long press to reject an incoming call.

FCC Warming

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

FCC Warming

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

FCC Warming

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
